SECURE LOCKABLE BATTERY BOX

Safeguard your pump and battery system from damage and theft with our lockable battery box, designed to provide reliable protection while maintaining easy access when needed.

43° DUMP ANGLE

The 70SR features a unique design with a steeper 43° dump angle compared to typical dump trailers, ensuring effortless unloading of material and an overall smoother dumping experience.

SEALED MODULAR WIRING HARNESS

The sealed modular wiring protects the wiring of the 50SR. This also allows quicker and more robust repairs than traditional wiring attachments.

EFFORTLESS MAINTENANCE

Our forward self-adjusting brakes make brake maintenance a breeze. The system automatically adjusts the brake shoes as they wear down, eliminating the need for manual adjustments.
