5-STAGE TELESCOPIC CYLINDER

Front-mounted for unobstructed operation and easy access for inspection and maintenance.

I-BEAM FRAME

Engineered to reduce frame flex and deliver exceptional strength and stability when hauling heavy equipment or aggregate.

INTEGRATED BOARD BRACKETS

Board brackets make it easy to install sideboard extensions while helping protect the dump body during loading.

SLAM LATCH REAR GATE

Spring-loaded latches automatically engage when the gate is closed, providing fast, secure operation.
